

WKS	TOPICS	LEARNING OBJECTIVES	CONTENT	SKILLS	RESOURCES
1	Revision Counting Skill: Numbers 1 -450 and 251 -450 Writing Skill: -Writing of the numbers. -Revision of first term's work	Pupils should be able to: count numbers 1 - 450 order numbers from 1 - 450 identify numbers from 1 - 450 add two 2- digit numbers with sum not more than 100 using math facts subtract 1 digit number from a 2- digit number. compare numbers using place value system arrange items in order and identify them using the ordinal numbers. identify fractions and shapes	Pupils classify objects in groups according to their numbers. Pupils create quantities based on numbers given to them in groups. Pupils colour shapes in groups of numbers. Pupils sing songs on ordinal numbers, shapes, addition and subtraction of numbers. Pupils count from 1 - 450 Pupils match fractions to divided objects and shapes. Pupils add two 2-digit numbers without regrouping. Pupils as a class count number 1 - 450 and reverse the counting. Pupils as individuals write number 1 - 450 and write the reverse numbers. Pupils as individuals identify numbers randomly from 1-450 Pupils as individuals solve real life problems on addition and subtraction of 2-digit numbers	-Communication and collaboration -Problem solving -Personal development -problem solving -Digital Literacy -Creativity and imagination -Leadership and Personal Development -Citizenship	Flashcards, Shells, Crayons, Chart of fractions AUDIO VISUAL RESOURCES Number chart showing numerals 1 - 500, flash cards Video Link addition">www.weareteachers.com>addition additionhttps://youtu.be/dHu5TFxPtkhttp://youtu.be/nuPkzaZ49">www.proudtobeprimary.com>additionhttps://youtu.be/dHu5TFxPtkhttp://youtu.be/nuPkzaZ49
2	Addition of two 2 - digit numbers without exchanging or remaining Counting Skill: Numbers 450 - 470 and 1-470 Writing Skill: -Writing of the numbers. -Addition of 2 - digit numbers without exchanging or renaming IMPORTANCE: -Helps in counting items or goods together. - It also helps to find out the number of boys and girls in a class or a school.	Pupils should be able to: identify numbers from 450 -470 and 1-470 count from 1 - 470 write numbers 450 - 470 and 1-470 in numerals and in words add three 3-digit numbers without exchanging or renaming relate addition to real life experiences, e.g. adding the sum of items purchased in a shop correctly solve real life problems on two 3-digit numbers count and say the numbers in expanded form and write the numerals as 96 = 9 tens + 6 units	Pupils in groups tell addition stories and solve. Pupils as a class solve addition of 3-digit numbers such as $41 + 25 = 66$ $41 = 40 + 1$ $+ 25 = + 20 + 5$ $66 = 60 + 6 = 66$ Pupils as individuals use the addition machine of beads and cards to add numbers and give the answer. Pupils in small groups, use a deck of cards, pick up two cards, add the two numbers together. QUANTITATIVE REASONING $110 \rightarrow \square \leftarrow 320$ $203 \rightarrow \square \leftarrow 145$	problem solving Communication and collaboration Digital Literacy Creativity and imagination Leadership and Personal Development Citizenship	AUDIO VISUAL RESOURCES Number beads Beans seeds Addition Cards Abacus Charts on addition of 2-digit numbers without renaming or exchanging Counters such as sticks, bottle tops Video Link addition">www.weareteachers.com>addition addition">www.proudtobeprimary.com>addition
3	Subtraction of two 2 - digit numbers with regrouping Counting Skill: Numbers: 490 - 510, 1-250 and	Pupils should be able to: identify numbers from 490 -510 count from 1 - 510 write numbers 490 - 510 and 1-510 in	Pupils in small groups use number flash cards to tell subtraction story and solve. Pupils sing subtraction songs. Pupils as a class solve subtraction of two 2-digit numbers e.g. $47 - 25 = 22$	Problem solving Communication and collaboration Digital Literacy Creativity and imagination Leadership and	AUDIO VISUAL RESOURCES Number beads Beans seeds

	open sentence. IMPORTANCE: -It helps to determine the scores of a game. -It helps to compare quantities of items.	solve open sentences by performing arithmetic operations.	Pupils add more blue pegs on the left side until the weight is balanced. Then count the number of blue pegs which is 4.		Video Link www.mathinterventions.org www.splashlearn.com math>multiplication">www.education.com>math>multiplication
9	Multiplication: By using repeated addition (Additive Multiplication) Counting Skill: -Numbers 250 – 300, 301-600. -Skip counting of numbers in 2s, 3s, 5s and 10s. Writing Skill: -Writing of the numbers in ascending and descending orders. -Multiplication of 1 – digit number by 2 or 3 without remaining or exchanging.	Pupils should be able to: identify numbers from 250 –300 order numbers from 1 – 300 count from 1 – 300, skip count in 2s, 3s, 5s and 10s write numbers 250 – 300 in numerals and words illustrate and explain the concept of multiplication identify the multiplication sign (X) multiply numbers using repeated addition without renaming or exchanging, e.g. $2 \times 4 = 2+2+2+2=8$ apply multiplication	Pupils as a class recite 2, 3, 4 and 5 multiplication tables. Pupils as individuals count and add a given multiplication of 1 or 2-digit by 2 or 3 using counter to do repeated addition e.g. 2×3 $= 2 + 2 + 2$ $= 00 + 00 + 00$ $= 6$ Pupils in pairs use number cards to give mental sums on multiplication of two 1-digit numbers. Pupils as individuals solve real life problems on multiplication of 2-digit by 2 and 3 without exchanging or renaming. E.g. 1 box of books contains 8 books Then 3 boxes of books will contain $3 \times 8 = 24$ OR $8+8+8 = 24$ There are 24 books in the 3 boxes.	Problem solving Communication and collaboration Digital Literacy Creativity and Imagination Leadership and Personal Development	AUDIO VISUAL RESOURCES -Objects: Oranges, bottle tops, apples, other objects in and around the classroom -Multiplication number cards -Multiplication table chart.
